## **8 Omega Online Training: “8 Omega Executive Skill Builder”**

**By Doug Kirkpatrick**

This aptly titled online training module from the BPMG is an excellent way to check one’s knowledge after working through the original 8 Omega DADVIICI training modules.

The course is highly interactive, and while there are definitely right and wrong answers to the questions posed, the module doesn’t slam your ego for missing a few. In fact, you have all the opportunity you desire to revise answers (four per screen) before moving on to the next question.

Like all other 8 Omega modules, this one is laid out in the familiar Strategy, People, Process and Systems sequence.

Along with a key question at the top of each screen, there are succinct learning points displayed at the bottom of the screen. I recommend you take the time to read these learning points even if you get all the answers right on the screen—they are well written and reinforcing. Furthermore, they augment prior learning without seeming repetitive.

The nice thing about this course is that you get a chance to demonstrate your knowledge, you receive IMMEDIATE feedback, and you find out what the answers are at your own pace.

I only wish this learning method had been available in high school algebra class.
